Response to Amendment

1. Applicant's amendment filed on 6/05/2005 has been entered. No claims have been canceled. No claims have been added. Claims 1-27 and 40-41 are still pending in this application, with claims 1, 11, 21, 40 and 41 being independent.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

The applied reference has a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in

Art Unit: 2642

the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

3. Claims 1-27 and 40-41 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Brown et al (US PAT # 6, 826,276).

The disclosure is substantially the same as Brown reference (see col. 5, lines 32-42).

4. Claims 1-27 and 40-41 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Brown et al (US # 20030103619).

The disclosure is substantially the same as Brown et al, reference (see abstract of the invention and P.1).

Remarks

5. Prior art search reveled some closely related applications/patents belong to the same assignee. Applicant is required to inform PTO of all applications that are directly related to this application. Applicant is advised that double patenting rejections may become appropriate.

Response to Arguments

6. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Conclusion
